ABOUT MINERVA ACADEMY FOOTBALL CLUB

WHY DID WE DECIDE TO SET UP THE AFCAI PROJECT?

Established in 2015 as an amateur 6-a-side club, in a short span of 5 years, Minerva Academy FC was promoted from state level to national 2nd division and then to the top division I-league.

We won the I-league in 2017-18 and even represented India at the AFC Champions League and AFC Cup at Asian level.

Minerva's youth teams of U-13, U-15, U-18 level have been the national champions consistently in the last five years.

Minerva Academy Football Club achieved all of this with a sustainable business model and having a modest budget.

We were often asked by other clubs/academies, how were we able to do it? This is when we decided to set up AFCAI to help other clubs like ours avoid mistakes made by us and give them the guidance and support we wished we had.

We wish to share the secrets of our success as a football club and academy for the betterment of Indian Football as a whole.

FRIENDSHIP

The very foundation of AFCAI Association of Football Clubs and Academies of India is Friendship. Bridging the gap between club/academies from every corner of the country and bringing them together under single umbrella for free exchange of knowledge.

EQUALITY

Helping one and all, new or existing football academies, rich or poor, urban or rural, with equal access to opportunities irrespective of location, demographics, or socio-economic backgrounds.

FAIRNESS

Sharing and exchanging knowledge and resources freely with upcoming or struggling clubs/academies to help them success and achieve their true potential. Helping all members have access to the best possible resources and support.

HEALTH

Helping local clubs/academies succeed by establishing themselves in their regions, thereby improving the overall awareness about health and wellness at community level.

PEACE

Helping local clubs/academies succeed by establishing themselves in their regions, thereby promoting Peace through promotion of sport at community level, keeping youth engaged with the sport, away from crime and violence.

DEVOTION

We believe in the value of Devotion towards the sport by giving back to and engaging with the community. We are indebted to the wonderful sport of football and it is our act of Devotion to help other clubs/academies succeed as well.

VICTORY

Victory is the ambition of every member club/academy and often a measure of success. We believe that no victory is unattainable if the preparation is good. We help our members be victorious by supporting them in overcoming the challenges faced by them.

TRADITIONS

We promote the value of Traditions by pledging to help other small football academies/clubs succeed and grow. All our members now follow the Tradition of offering help and support to others like themselves.

HONOR

Honor should not be denied to any stake holder weather big or small who is serving the sport of football. To be treated with dignity themselves and offering a mutual respect to other members is at the core of our foundation.

When I came across AFCAL, the first thing that came to my mind is that finally, there is an organisation that is trying to bring various clubs from nook and corner of the country under one umbrella. Its a big privilege for a very very tiny club like ours to be in the big loop and it gives us a sense that we are not alone, that there is a guardian like organisation to which we can look upon for encouragement and motivation.
